Abu Dhabi International Petroleum Exhibition & Conference
11 – 14 November 2019
adipec.com
One global industry. 
One city. 
One meeting place.
Established in 1984, the Abu Dhabi International Petroleum Exhibition and Conference is a world-class business platform that has grown exponentially to become the world’s meeting point for oil and gas professionals.

110,000 trade professionals are expected to attend ADIPEC 2018, while 980 industry leading experts will share their knowledge with 10,400 conference delegates from 135 countries.

From operating companies to the international supply chain and those at the forefront of technological advances, ADIPEC hosts more than 2,200 exhibiting companies and 29 exhibiting country pavilions that showcase thousands of products, services and solutions across the up, mid and downstream sectors of the oil and gas industry.
Shaping The Future Of Oil And Gas

The 35th edition of the Abu Dhabi International Petroleum Exhibition and Conference (ADIPEC) will take place from 11 – 14 November 2019 in Abu Dhabi, UAE. Held under the patronage of H.H. Sheikh Khalifa Bin Zayed Al Nahyan, President of the United Arab Emirates and hosted by the Abu Dhabi National Oil Company (ADNOC), ADIPEC is one of the world’s largest, most important and influential oil and gas events that brings together industry stakeholders and experts to share knowledge and exchange ideas on a brighter future for the energy sector.

Oil and natural gas demand continues to rise, and with global consumption increasing due to growth in population levels across fast-growing and emerging economies, the need for significant investment to meet the world’s ever growing demand remains critical to future growth. The International Energy Agency (IEA) estimates that the world will consume 100.8 million barrels of oil per day this year, up from 98.8 million in 2017. Accordingly, global oil and gas production will continue to rise, underlining the need of product manufacturers, service companies and SME’s to work with resource owners and operators on setting the agenda as well as advancing the need for integration in order to meet the ever increasing demand.

The oil and gas industry is more agile than ever before, with the industry adapting and evolving. Across the full value stream companies are embracing new opportunities, technologies and solutions that are changing the way the industry does business. ADIPEC 2019 will once again facilitate connections and knowledge sharing and continue to provide a platform for the oil and gas industry to define the new energy landscape.

The Abu Dhabi International Petroleum Exhibition and Conference (ADIPEC) brings together the very companies, decision and policy makers that shape the future of oil and gas supply across 4 days of focused business, dialogue and knowledge transfer that addresses today’s energy challenges and define tomorrow’s energy landscape. With more than 2,200 exhibiting companies, including 42 NOCs & IOCs, 29 international country pavilions and an international technical and strategic conference programme led by Energy Ministers and international CEO’s, ADIPEC is the convening force behind tomorrow’s oil and gas partnerships.

"ADIPEC has become the premier destination for the oil & gas industry, a place to reconnect, explore new opportunities and debate."

Join 42 Leading NOCs, IOCs From Around The World

Exhibiting National Oil Companies Include:

Exhibiting International Oil Companies Include:
And 29 Exhibiting Country Pavilions

The world’s most influential meeting point for oil & gas professionals.

Abu Dhabi has always been at the very heart of the international energy sector. The energy capital and ADIPEC provides the ideal venue for the world’s nations to come together to discuss commerce and innovation.

ADIPEC’s country pavilions play a key role in enhancing bi-lateral trade, creating the opportunity for dialogue and long lasting agreements. The presence of so many country pavilions underlines the importance of ADIPEC.

“ADIPEC is now the largest oil and gas exhibition and conference in the world. There are people from more than 100 countries here. I look at the world map, Abu Dhabi is right about the cross-roads of everything.”

Bob Dudley
Group Chief Executive
BP
Exhibit To Explore The Full Length Of The Hydrocarbon Value Chain

ADIPEC provides your business with in depth analysis, knowledge and exposure to real business opportunities in upstream, midstream and downstream oil and gas.

### Upstream

ADIPEC attracts high level government officials, oil and gas ministers, energy business leaders, purchasers, technical experts and key influencers to the exhibition and conference sessions.

ADIPEC 2018 presents suppliers, manufacturers and service companies with the ultimate opportunity to showcase their achievements and share best practice with the industry.

“ADIPEC is the Davos of the oil and gas industry so what more could I say than the importance of that.”

**Lord Jim O’Neill**
Former Commercial Secretary
HM Treasury, UK Government

About The Club
The Middle East Petroleum Club is an exclusive business platform for knowledge sharing and connectivity among the global oil and gas industry’s top decision makers and influencers. The Club is where like-minded industry leaders engage in dialogues that influence and shape the future of the oil and gas industry.

Connecting
With over 3,000 members ranging from Ministers and CEO’s to Executive Management teams from around the world, the Middle East Petroleum Club offers the ultimate platform to connect with like-minded peers.

Influencing
From policy makers to corporate leaders, the Club provides unparalleled opportunities to engage in business-critical conversations that influence the future of the industry.

Advancing
With so many distinguished members gathered under one roof across four days of high-volume business discussions, the Club provides the ideal catalyst for bilateral trade that shapes and advances the oil and gas landscape.

Inspired by the success of the Middle East Petroleum Club, ADIPEC 2018 launched the Offshore & Marine Petroleum Club for the first time, in answer to the demand and growth of the ADIPEC Offshore & Marine Exhibition and Conference. The Offshore & Marine Petroleum Club is an elite, invitation-only membership club for business leaders, key decision makers and stakeholders from; Operators, Service Companies, EPC contractors, Subsea Contractors/Engineering, Drilling Contractors, Ship Owners, and Vessel Operators, that are involved within Offshore Projects and Marine Services. Located within Hall 15 next to the quay-side, the club provides members the unique opportunity to see Vessels, Barges and Jack-Up rigs along with technologies, whilst meeting the global industry in a discreet environment.

To find out more about becoming a member of the Middle East Petroleum Club or the Offshore & Marine Petroleum Club and the membership criteria please contact our team on mepc@dmgevents.com

For more information please visit www.adipec.com
The ADIPEC Awards celebrates achievement and accomplishment in the Oil and Gas Industry by recognising the leading companies, individuals, initiatives, projects and technologies which have displayed a level of excellence on an international scale. Across six Award categories, companies are given the opportunity to be recognised and ultimately awarded for their accomplishments within the areas of research, technological innovation, digital transformation, performance and efficiency, social contributions, personal achievement and business progression.

Held under the patronage of His Excellency Sheikh Nahyan Mabarak Al Nahyan, Minister of Tolerance, Young ADIPEC 2019 will host the 7th edition of the programme, fully supported by Abu Dhabi Department of Education and Knowledge (ADEK). Since its creation back in 2013, the Young ADIPEC programme has received praise and recognition from across the oil and gas industry. Aimed at High School students aged between 14 and 17 years old, Young ADIPEC is designed to win the hearts and minds of today’s youth and highlight the wealth and diversity of career opportunities in the sector. Over 2500 students from across the UAE have passed through the programme since its inception in 2013 and our aim is to continue to grow this number in 2019 as we prepare to engage and encourage students to explore what the industry has to offer.

The ADIPEC Golf day offers an exclusive opportunity to engage with 100+ key industry players in a relaxed social atmosphere. The golf day will be held at one of the most luxurious golf resort experiences within Abu Dhabi. The day begins with a warm-up before teams of four play the 18-hole championship course. The day culminates with dinner and prize-giving.

The Heavy Machinery Zone is for companies who would like to display large pieces of equipment used in building and maintaining facilities, well pads and pipelines and companies who specialise in logistics. The oil and gas industry necessitates the highest standard of equipment for the safe build of infrastructure surrounding exploration sites and refineries and the transportation of oil and natural gas from the field to the refinery and onwards for consumer use.
