

# SPACE DAY EVENTS

AT THE PARIS AIR SHOW 2019

## SCHEDULE OF EVENTS FOR TUESDAY, JUNE 18TH, 2019

9:30- **SPACE DAY KICKOFF!** *\*By Invitation Only*

10:00AM **Location:** USA Partnership Pavilion Meeting Point, Booth #D133, Hall 3

June 18th has been designated "SPACE DAY" in the USA Partnership Pavilion. Join U.S. Government and other foreign officials and industry leaders for this networking event and launch of the Space Day Program.

**Featured Guests:**

**Brig. Gen. Charlie Duke**, USAF, Ret., Lunar Module Pilot, Apollo 16

**Col. Walt Cunningham**, USMCR, Ret., Lunar Module Pilot, Apollo 7

**Col. Al Worden**, USAF, Ret., Command Module Pilot, Apollo 15

10:00- **WHAT TECHNOLOGIES DO WE NEED TO RETURN**  
11:00AM **TO THE MOON, MARS AND BEYOND?**

**Location:** The Launch Pad, Booth #B79, Hall 3

As we continue to explore further into the universe there are a myriad of technical challenges that need to be overcome, particularly in regard to prolonged, long-distance, human space flight. During this session we will hear directly from top industry leaders about the innovative approaches being engineered to address those challenges.

11:30AM- **THE ROLES OF THE PRIVATE AND PUBLIC**  
12:30PM **SECTORS IN ACHIEVING THE NEXT GENERATION**  
**OF SPACE FLIGHT**

**Location:** The Launch Pad, Booth #B79, Hall 3

America's activities in space has always been a public-private-partnership as NASA, from its earliest days, engaged private contractors in the design and implementation of its missions. This model has evolved over five decades, especially as capabilities and funding has shifted back and forth between partners. This session will involve government officials who plan, promote and regulate space-related activities speaking alongside venture capitalists and private-sector space entrepreneurs as we discuss the "trillion dollar space economy".

2:00- **GLOBAL COOPERATION TO ACHIEVE OUR MISSION**

3:15PM **Location:** The Launch Pad, Booth #B79, Hall 3

The International Space Station have demonstrated how cooperation across national borders here on earth can contribute to shared success in space. Going forward, international partnerships will play an integral role in projects such as Gateway and other ambitious missions of exploration and discovery. We are inviting senior officials from several of the world's most-prominent space agencies to discuss their vision of how this global cooperation will be structured, and the role they will play individually and collectively in the next era of space travel.

3:30- **TRIBUTE TO APOLLO VIP RECEPTION** *\*By Invitation Only*

5:00PM **Location:** The Partnership Chalet, Chalet 8

**In Partnership with:** General Atomics Aeronautical, Greater Houston Partnership, Lockheed Martin & Raytheon

TENTATIVE AS OF APRIL 5TH, 2019
